

2002-SPRAY

GENERAL USE & ELECTRIC EQUIPMENT CLEANER

Fast Evaporating

DESCRIPTION: 2002 is a completely new technology, liquid compound, especially formulated for use in all cleaning operations where a fast evaporating product is required.

Effectively removes oil, grease, dust, moisture, etc.
Safe to all types of plastic and rubber.

BENEFITS:

- Ozone friendly - CFC free
- Does not contain chlorinated hydrocarbons
- Ideal for electrical/electronic parts
- Low odor
- Fast evaporation
- No residue
- Safe on all metals and plastics

APPLICATIONS: 2002 is used for industrial, office, military, aviation and marine equipment for cleaning all electric and electronic parts and as a general use cleaner, such as:

Circuits	Wires	Radar	Communication equipment
Switches	VCRs	Antennas	Distributors
Potentiometers	Radios	Telephones	Oxygen systems
Transistors	Tape recorders	Aviation material	Precision assemblies
Rheostats	Computers	Control panels	Machine parts, etc.
Televisions	Typewriters	Sparkplugs	

PRECAUTIONS:

Extremely flammable. Do not spray on naked flame or hot surfaces. For further instructions refer to Material Safety Data Sheet (MSDS).

PACKAGING:

Is available in spray cans (Aerosol) of 400 ml and in 5 gallon cans.
